

Flight Instructor Open Forum

The CFI Forums present very important subjects regarding main causes of General Aviation accidents. Main topic: 'Stalls' -- Recognition, Recovery, Prevention. 'What's happening out there'. Also, material regarding "basic flight instruction techniques" and an open discussion on the importance of better risk management and decision making practices in all pilots. We need to teach these "live saving habits". This Forum meeting series DOES NOT RESULT in credit for CFI renewal.

Directions: From Kansas City, I-35 So., East on W 151st, Airport on right.

A message from the National FAASTeam Manager

The new WINGS--Pilot Proficiency Program is great! Check it out now!

Sign up for the FAA's safety services at www.FAASafety.gov!
